INTRODUCTION	

1. INTRODUCTION

1.1. Document Purpose

This document presents the high level and business requirement BPMs for Administrative Cooperation. Annexes to this report contain the model graphics and business requirements that support the readability of this report.

1.2. Deviation From TEMPO

The following TEMPO sections are not part of this document:

- Sign Off list;
- Distribution List;
- Scope;
- Applicable Documents;
- List of Tables;
- List of Figures.

The following TEMPO sections are added to this document:

- Project Ownership;
- Intended Audience.

1.3. Assumption and Constraints

The reader should have a basic knowledge of the levelling guidelines [R01].

1.4. Project Ownership

The unit DG TAXUD/C2 is the project owner of this Excise High Level and Business Requirements BPM Report.

1.5. Intended Audience

1. The purpose of this document is to establish a common understanding between readers that are familiar with the applicable documents and may belong to the following categories:

- Any person responsible for the Excise - EMCS business / system processes, requirements, functional specifications or conformance testing;
- Any person responsible for the Export - AES business / system processes, requirements, functional specifications or conformance testing;
- Any person of the development team of DG TAXUD/C5 who will use this document as a reference during the development cycle;
- Any person from the DG TAXUD units who has to verify whether the current document is consistent with the applicable documents and depicts the solution to be followed;
- Any Member State (MS) or Trade representatives who have to identify the actions, implications and consequences on their national domain, including both business people and people having an IT background.

1.6. Structure of Document

This document is organised as follows:

- Introduction;

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Administrative Cooperation
Excise High Level and Business Requirements BPM Report for - Administrative Cooperation	
INTRODUCTION	

- References, containing a list of acronyms and abbreviations and the documents referenced in this report;
- Document History, listing the different versions and submission dates of this report;
- High Level Business Overview, providing an overview of the business domain and the actors, and mentioning the legal units responsible for the business domain covered in this report
- Process Models, visualising in separate sections information from the high level and business requirement BPMs relating to the business domain covered in this report.

In a separate report, the following related annex may be found:

- Annex 1: Model Graphics
- Annex 2: Business Requirements, providing a list of all business requirements for the processes covered in this report
- Annex 3: List of Amendments.

HIGH LEVEL BUSINESS OVERVIEW	

4. HIGH LEVEL BUSINESS OVERVIEW

4.1. Business Domain Overview

EMCS Core encapsulates all processes that make up the business life cycle of an excise movement under duty suspension arrangements.

4.2. Actors

ACTOR	ROLE
Issuing MSA	The central excise liaison office or any liaison department or competent official of a Member State who issues and forwards, without prior request (by means of regular or event-driven automatic exchange or by means of spontaneous exchange), the information necessary to ensure the correct application of legislation on excise duties.
Addressed MSA	The central excise liaison office or any liaison department or competent official of a Member State who receives, without prior request (by means of spontaneous exchange), the information necessary to ensure the correct application of legislation on excise duties.
Concerned MSA	The central excise liaison office or any liaison department or competent official of a Member State who receives, without prior request (by means of regular or event-driven automatic exchange), the information necessary to ensure the correct application of legislation on excise duties.
Requested Authority	The central excise liaison office or any liaison department or competent official of a Member State who receives a request for assistance on behalf of the competent authority.
Excise Authority	N/A
Requesting Authority	The central excise liaison office or any liaison department or competent official of a Member State who makes a request for assistance on behalf of the competent authority.

4.3. Legal Units

The following legal units are responsible for the business domain: DG TAXUD.

- C2

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Administrative Cooperation
Excise High Level and Business Requirements BPM Report for - Administrative Cooperation	
PROCESS MODELS	

5. Process Models

This section provides the full business process documentation of the processes within the scope of this business domain.

For each business process the process details, such as assumptions and reference documents, are documented. In addition a set of tables describe each process flow component (events and tasks) with further details regarding their legal references and additional descriptive information where necessary.

In Annex 1 and Annex 2 the related model graphic and business requirements can be found respectively.

Table 5.1: Process Details

5.2. L3 Business Requirements BPM

5.2.1. Process L3-ACO-01-01-Cooperation on Request

5.2.1.1. Objective of Process

The purpose of the current process is to describe the Cooperation on Request for movement(s) of Excise Goods within the European Union, in accordance with the Articles 8, 11 and 25 of the Council Regulation (EU) No 389/2012.

The current process starts when the Requesting Authority decides to request from the Requested Authority specific information and/or a specific administrative enquiry, concerning movement(s) of excise goods within the European Union. For this purpose, the Requesting Authority requests this information and/or the administrative enquiry from the Requested Authority. In addition, the Requested Authority sets the Time Limit (i.e. 3 months or other agreed Time Limit) within which the Requested Authority should provide the requested information.

In case the Requested Authority is unable to provide the requested information, the Requested Authority informs the Requesting authority of the reasons for refusing to provide the requested information. After the Requesting Authority receives these reasons from the Requested Authority, the whole process ends at this point.

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Administrative Cooperation
Excise High Level and Business Requirements BPM Report for - Administrative Cooperation	
PROCESS MODELS	

In case the Requested Authority is able to provide the requested information , the process continues as follows:

- If the Requested Authority is already in possession of the requested information, the Requested Authority continues with arranging for the conduct of any necessary administrative enquiries, in order to obtain the information needed. The Requested Authority proceeds as though acting on its own account or at the request of another authority in its own MSA. Then, the Requested Authority communicates to the Requesting Authority the necessary information within one month following the date of receipt of the request. The Requesting Authority receives the necessary information and the process continues.
- If the Requested Authority is not already in possession of the requested information but the Requested Authority is able to respond to the Requested Authority within the Time Limit (i.e. 3 months or other agreed Time Limit), the Requested Authority continues with arranging for the conduct of any necessary administrative enquiries, in order to obtain the information needed. The Requested Authority proceeds as though acting on its own account or at the request of another authority in its own MSA. Then, the Requested Authority communicates to the Requesting Authority the necessary information within three months following the date of receipt of the request. The Requesting Authority receives the necessary information and the process continues.
- If the Requested Authority is not already in possession of the requested information and the Requested Authority is unable to respond to the Requested Authority within the Time Limit (i.e. 3 months or other agreed Time Limit), the Requested Authority informs the Requesting Authority (within one month) of the reasons for failing to respond within the Time Limit and indicate when it expects to be able to respond. The Requesting Authority receives these reasons as well as the indication when the Requested Authority expects to be able to respond. The Requesting Authority then updates the Time Limit as indicated by the Requested Authority. Following, the Requested Authority continues with arranging for the conduct of any necessary administrative enquiries, in order to obtain the information needed. The Requested Authority proceeds as though acting on its own account or at the request of another authority in its own MSA. Then, the Requested Authority communicates to the Requesting Authority the necessary information within the updated time limit. The Requesting Authority receives the necessary information and the process continues.

Subsequently, the Requested Authority proceeds with taking follow-up actions based on the received information.

Then, the Requested Authority may decide to request from the Requesting MSA feedback on the follow-up action taken. More specifically:

- In case the Requested Authority decides not to request any feedback from the Requesting Authority, the whole process ends at this point;
- In case the Requested Authority decides to request feedback from the Requesting Authority, the Requested Authority proceeds with requesting from the Requesting Authority feedback on the follow-up action taken by the Requesting MSA, on the basis of the provided information and the process continues.

The Requesting Authority receives the request for feedback from the Requested Authority and checks if it is able to provide this requested feedback. Then:

- In case the Requesting Authority is not able to provide the requested feedback, the Requesting Authority informs the Requested Authority of the reasons for refusing to provide the requested feedback and the Requesting Authority keeps a record of the reasons for this refusal. Then, the Requested Authority receives these reasons and the process ends here.
- In case the Requesting Authority is able to provide the requested feedback, the Requesting Authority sends to the Requested Authority the requested feedback. The Requested Authority receives this feedback and the whole process ends.

5.2.2. Process L3-ACO-01-02-Mandatory Exchange of Information

5.2.2.1. Objective of Process

The purpose of the current process is to describe the Mandatory Exchange of Information necessary to ensure the correct application of legislation on excise duties, in accordance with Articles 15 and 25 of the Council Regulation (EU) No 389/2012.

The current process starts when:

- a) An irregularity or an infringement of legislation on excise duties has occurred, or is suspected to have occurred, in another Member State; OR
- b) An irregularity or an infringement of legislation on excise duties which has occurred, or is suspected to have occurred, in the territory of one MSA may have repercussions in another MSA; OR
- c) There is a risk of fraud or a loss of excise duty in another MSA; OR
- d) Total destruction or irretrievable loss of excise goods under a duty suspension arrangement has occurred; OR
- e) An exceptional event has occurred during a movement of excise goods within the Union, which is not provided for in the Council Directive (EU) 2020/262, and which may affect the calculation of liability to excise duty of an economic operator.

In any of the abovementioned triggering events (“a” to “e”), a MSA (hereinafter the “issuing MSA”) forwards the necessary information to any concerned MSA (hereinafter the “concerned MSA”). The concerned MSA receives the necessary information from the issuing MSA and the process continues.

Following, the issuing MSA may decide to request from the concerned MSA feedback on the follow-up action taken. More specifically:

- In case the issuing MSA decides not to request any feedback from the concerned MSA, the whole process ends here;
- In case the issuing MSA decides to request feedback from the concerned MSA, the process continues.

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Administrative Cooperation
Excise High Level and Business Requirements BPM Report for - Administrative Cooperation	
PROCESS MODELS	

The issuing MSA proceeds with requesting from the concerned MSA feedback on the follow-up action taken by the concerned MSA, on the basis of the provided information.

The concerned MSA receives the request for feedback from the issuing MSA and checks if this requested feedback imposes a disproportionate burden on the concerned MSA. The concerned MSA may also refuse to provide information for any of the reasons listed in Article 25. Then:

- In case the concerned MSA considers that the requested feedback indeed imposes a disproportionate burden or there are other reasons mentioned in Article 25, no feedback is sent to the issuing MSA. The concerned MSA shall inform the issuing MSA of the reasons for refusing the request to provide feedback and will keep the records of these reasons. The whole process ends at this point;
- In case the concerned MSA considers that the requested feedback does not impose a disproportionate burden on it, the process continues.

Following, the concerned MSA sends the requested feedback to the issuing MSA. The issuing MSA receives the feedback from the concerned MSA and the whole process ends here.

5.2.3. Process L3-ACO-01-03-Optional Exchange of Information

5.2.3.1. Objective of Process

The purpose of the current process is to describe the Optional Exchange of Information necessary to ensure the correct application of legislation on excise duties, in accordance with the Article 16 of the Council Regulation (EU) No 389/2012.

The current process starts when an MSA (hereinafter the “issuing MSA”) decides to forward (without prior request) to another MSA (hereinafter the “addressed MSA”) any necessary information that the issuing MSA is aware of and which exchange is not covered by the Article 15 of the Council Regulation (EU) No 389/2012.

For this purpose, the issuing MSA forwards the necessary information to the addressed MSA. The addressed MSA receives the necessary information from the issuing MSA and the process continues.

Following, the issuing MSA may decide to request from the addressed MSA feedback on the follow-up action taken. More specifically:

- In case the issuing MSA decides not to request any feedback from the addressed MSA, the whole process ends here;
- In case the issuing MSA decides to request feedback from the addressed MSA, the process continues.

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Administrative Cooperation
Excise High Level and Business Requirements BPM Report for - Administrative Cooperation	
PROCESS MODELS	

The issuing MSA proceeds with requesting from the addressed MSA feedback on the follow-up action taken by the addressed MSA, on the basis of the provided information.

The addressed MSA receives the request for feedback from the issuing MSA and checks if this requested feedback imposes a disproportionate burden on its MSA. Then:

- In case the addressed MSA considers that the requested feedback indeed imposes a disproportionate burden on it, no feedback is sent to the issuing MSA and the whole process ends at this point. In such case, the addressed MSA shall inform the issuing MSA of the grounds for refusing a request for feedback and keep the record of the grounds for refusal as per Article 25(5) of Council Regulation No 389/2012.
- In case the addressed MSA considers that the requested feedback does not impose a disproportionate burden on it, the process continues.

Following, the addressed MSA sends the requested feedback to the issuing MSA. The issuing MSA receives the feedback from the addressed MSA and the whole process ends here.

5.2.3.2. Process Details

PROCESS ATTRIBUTE NAME	PROCESS ATTRIBUTE VALUE
Process ID	L3-ACO-01-03
Full Name	Optional Exchange of Information
Assumptions	N/A
Reference Documents	Articles 16 and 25 of Council Regulation (EU) No 389/2012
