INTRODUCTION	

1. INTRODUCTION

1.1. Document Purpose

This document presents the high level and business requirement BPMs for Registration and Authorisation Data Management. Annexes to this report contain the model graphics and business requirements that support the readability of this report.

1.2. Deviation From TEMPO

The following TEMPO sections are not part of this document:

- Sign Off list;
- Distribution List;
- Scope;
- Applicable Documents;
- List of Tables;
- List of Figures.

The following TEMPO sections are added to this document:

- Project Ownership;
- Intended Audience.

1.3. Assumption and Constraints

The reader should have a basic knowledge of the levelling guidelines [R01].

1.4. Project Ownership

The unit DG TAXUD/C2 is the project owner of this Excise High Level and Business Requirements BPM Report.

1.5. Intended Audience

1. The purpose of this document is to establish a common understanding between readers that are familiar with the applicable documents and may belong to the following categories:

- Any person responsible for the Excise - EMCS business / system processes, requirements, functional specifications or conformance testing;
- Any person responsible for the Export - AES business / system processes, requirements, functional specifications or conformance testing;
- Any person of the development team of DG TAXUD/C5 who will use this document as a reference during the development cycle;
- Any person from the DG TAXUD units who has to verify whether the current document is consistent with the applicable documents and depicts the solution to be followed;
- Any Member State (MS) or Trade representatives who have to identify the actions, implications and consequences on their national domain, including both business people and people having an IT background.

1.6. Structure of Document

This document is organised as follows:

- Introduction;

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Registration and Authorisation Data Management
Excise High Level and Business Requirements BPM Report for - Registration and Authorisation Data Management	
INTRODUCTION	

- References, containing a list of acronyms and abbreviations and the documents referenced in this report;
- Document History, listing the different versions and submission dates of this report;
- High Level Business Overview, providing an overview of the business domain and the actors, and mentioning the legal units responsible for the business domain covered in this report
- Process Models, visualising in separate sections information from the high level and business requirement BPMs relating to the business domain covered in this report.

In a separate report, the following related annex may be found:

- Annex 1: Model Graphics
- Annex 2: Business Requirements, providing a list of all business requirements for the processes covered in this report
- Annex 3: List of Amendments.

HIGH LEVEL BUSINESS OVERVIEW	

4. HIGH LEVEL BUSINESS OVERVIEW

4.1. Business Domain Overview

Registration and Authorisation Data Management domain encapsulates all processes that make up the the management of registration and authorisation of the data regarding excise movements under duty suspension arrangements.

4.2. Actors

ACTOR	ROLE
Economic Operator	In accordance with the introduction of the Council Regulation (EU) No 389/2012 (paragraph 10), Economic operator means a person who, in the course of his business, is involved in activities covered by legislation on excise duties, whether authorised to do so or not.
Excise Authority	N/A
Commission	<p>In accordance with Regulation No 612/2013, Paragraph (3), Paragraph (10), Regulation No 389/2012, Art. 19(4), the Commission is the executive body responsible to operate the central register of economic operators (Central Register) as a part of a computerized system in a manner that ensures at all times a correct up-to-date view of the national registered data provided by all Member States. Additionally, is responsible to extract statistical information from the register and deliver it to the Member States on a monthly basis. Finally, the Commission shall establish and maintain a list of the responsible central excise liaison offices or liaison departments on the basis of information provided by the Member States and shall make that list available to Member States.</p> <p>The Commission is also the executive body responsible to operate the Central Reference Database.</p>
Central ELO or Liaison Department	In accordance with Regulation No 389/2012, Art. 19(3), the central excise liaison office or a liaison department of each Member State that ensures that the information contained in the national registers is complete, accurate, up to date, and communicated to the Commission in a timely manner. In accordance with Regulation No 612/2013, Art. 4, the central excise liaison office or a liaison department may or may not be registered to receive notifications of modifications.

4.3. Legal Units

The following legal units are responsible for the business domain: DG TAXUD.

- C2

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Registration and Authorisation Data Management
Excise High Level and Business Requirements BPM Report for - Registration and Authorisation Data Management	
PROCESS MODELS	

5. Process Models

This section provides the full business process documentation of the processes within the scope of this business domain.

For each business process the process details, such as assumptions and reference documents, are documented. In addition a set of tables describe each process flow component (events and tasks) with further details regarding their legal references and additional descriptive information where necessary.

In Annex 1 and Annex 2 the related model graphic and business requirements can be found respectively.

5.1. L2 High Level BPM

5.1.1. Process L2-RADM-01-00-Registration and Authorisation Data Management

5.1.1.1. Process Details

PROCESS ATTRIBUTE NAME	PROCESS ATTRIBUTE VALUE
Process ID	L2-RADM-01-00
Full Name	Registration and Authorisation Data Management
Assumptions	N/A
Reference Documents	Commission Implementing Regulation (EU) No 612/2013 Council Regulation (EU) 389/2012

Table 5.1: Process Details

5.2. L3 Business Requirements BPM

5.2.1. Process L3-RADM-01-01-Maintenance of the Central Register

5.2.1.1. Objective of Process

The purpose of this process is to describe, the storage and exchange of information on authorisations of economic operators and tax warehouses, between the Commission and the central excise liaison office or liaison department of each Member State, in terms of maintenance of the Central Register and forwarding of modifications (*) to national registers.

The process starts when a central excise liaison office or liaison department decides to notify the Central Register of modifications of its national register using the Operations on the register of economic operators, message set out in Table 2 of Annex I. Notifications of modifications of the national register are forwarded to the Central Register at the latest on the activation date (*) of the modification. In case the activation date of the modification is greater than the date of the notification of the modification, the process ends, and the forwarding of notification of modification is unavailable.

Within two hours (**) of receipt of notification of modification of the national register, the Commission processes that modification as follows, in accordance with Article 4.

It is also possible the Commission does not process that modification within the time limit. In case there is not any duly justified reason for this delay, the process ends at the Commission side. In case there is any duly justified reason (***) for this delay, the process continues as follows.

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Registration and Authorisation Data Management
Excise High Level and Business Requirements BPM Report for - Registration and Authorisation Data Management	
PROCESS MODELS	

The Commission, upon receiving Operations on the register of economic operators, from a central excise liaison office or liaison department, containing a notification of a modification to a national register, verifies that the structure and content of the message comply with Table 2 of Annex I.

If the structure and content of the message comply with Table 2 of Annex I, the Commission registers the modification in the Central Register, without delay. The Commission confirms whether there is any Central ELO or liaison department registered to receive notifications of modifications. If this is the case, the process “Forward notifications of modifications” is triggered, the Commission forwards the notification of modification, and the process ends. If there are no Central ELO or liaison department registered to receive notifications of modifications, then notification of modification is not forwarded and the process ends.

If the structure or content of the Operations on the register of economic operators does not comply with Table 2 of Annex I, the Commission specifies the reason code for the refusal (in accordance with the values included in the data group 2 a set out in Table 3 of Annex I). Thereafter, the Commission returns the notification using the Refusal of update of economic operators, message set out in Table 3 of Annex I, to the central excise liaison office or liaison department that forwarded the notification. The process ends at the Commission side.

Upon receipt of a Refusal of update of economic operators, the central excise liaison office or liaison department carries out any necessary corrective action without delay. The process ends at this point and the Central ELO or liaison department is able to start the process again in order to forward the correct Notifications of modifications of the national register. If the Central ELO or liaison department does not proceed in any corrective actions, the process ends. The process ends at this point and the Central ELO or liaison department is able to start the process again. If the Central ELO or liaison department does not proceed in any corrective actions, the process ends.

In the case when the Central ELO or liaison department does not receive any Refusal of update of economic operators, corrective actions are not carried out and the process ends at the side of the Central ELO or liaison department that forwarded the notification of modification.

(*) In accordance with Art.2(2) 2013/612/IR

- ‘modification’ means the creation, update or invalidation of a record;
- ‘record’ means an entry in a national register or the Central Register referred to in Article 19(4) of Regulation (EU) No 389/2012, making reference to excise goods under duty suspension arrangements;
- ‘activation date’ means the date in a record set by the responsible Member State, from which date the record is available for use in electronic verification in all Member States and from which the extracted details thereof are available for consultation for economic operators.

(**) In accordance with Art.8(1) 2013/612/IR, there exists a service time limit of two hours, for the Commission to process a notification of a modification of a national register, in accordance with Article 4.

(***) In accordance with Art.10 2013/612/IR, the service obligations of the Commission and the Member States, laid down in Art.8 2013/612/IR, do not apply under duly justified circumstances (as mentioned in paragraphs a, b, c, d).

5.2.2. Process L3-RADM-01-02-Request extract for Central ELO or liaison department not registered to receive notifications of modifications

5.2.2.1. Objective of Process

The purpose of this process is to describe the request of an extract from the Commission of the modifications (*) of records as referred to in Art. 19(2) 2012/389/CR, concerning economic operators engaged in moving excise goods under duty suspension arrangements, applied to the Central Register.

The process runs at least twice a day.

The process starts when the central excise liaison office or liaison department, who is not registered to receive notifications of modifications, decides to request from the Commission an extract of modifications applied to the Central Register using the Common Request, message set out in Table 1 of Annex I.

Within two hours (**) of receipt of a Common request message, the Commission extracts the modifications applied to the Central Register and provides the requested information to the requesting central excise liaison office or liaison department, who is not registered to receive notifications of modifications. Upon receiving the extract of the modifications applied to the Central Register, the central excise liaison office or liaison department, who is not registered to receive notifications of modifications, incorporates the modifications that have been received from the Commission into its national register and the process ends.

It is also possible the Commission does not provide the requested information within the time limit. In case there is any duly justified reason (***) for this delay, the process continues as described in the previous paragraph.

In case the time limit of the two hours is reached and this delay is not duly justified (***), the requested information is no longer possible to be provided and the process ends at the Commission side. When this occurs, the requested extract of the modifications applied to the Central Register is not received by the central excise liaison office or liaison department, who is not registered to receive notifications of modifications, and the process ends.

(*) In accordance with Art.2(2) 2013/612/IR

- 'modification' means the creation, update or invalidation of a record;

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Registration and Authorisation Data Management
Excise High Level and Business Requirements BPM Report for - Registration and Authorisation Data Management	
PROCESS MODELS	

- 'record' means an entry in a national register or the Central Register referred to in Article 19(4) of Regulation (EU) No 389/2012, making reference to excise goods under duty suspension arrangements.

(**) In accordance with Art.8(2) 2013/612/IR, there exists a service time limit of two hours of receipt of a Common Request, message set out in Table 1 of Annex I, when the Commission shall provide the requested information to the requesting central excise liaison office or liaison department.

(***) In accordance with Art.10 2013/612/IR, the service obligations of the Commission and the Member States, laid down in Art.8 2013/612/IR, do not apply under duly justified circumstances (as mentioned in paragraphs a, b, c, d).

Table 5.33: Event Requested extract of notifications of modifications received and incorporated into the national register

5.2.3. Process L3-RADM-01-03-Forward notifications of modifications to national registers

5.2.3.1. Objective of Process

The purpose of this process is to describe the forwarding from the Commission via the Central Register, of modifications (*) of records as referred to in Art. 19(2) 2012/389/CR, concerning economic operators engaged in moving excise goods under duty suspension arrangements, to Central ELO or Liaison Department Registered to Receive Notifications of Modifications; and the incorporation in national registers.

The process starts when the Commission registers notifications of modifications to the Central Register. The Commission sends a notification of modification to each Member State, of which the central excise liaison office or liaison department is registered to receive notifications of modifications, using Operations on the register of economic operators, message set out in Table 2 of Annex I; and the process ends at the Commission side.

Upon receiving the Operations on the register of economic operators, the central excise liaison office or liaison department registered to receive notifications of modifications, incorporates the modifications that have been received from the commission into its national register and the process ends.

(*) In accordance with Art.2(2) 2013/612/IR

- 'modification' means the creation, update or invalidation of a record;
- 'record' means an entry in a national register or the Central Register referred to in Article 19(4) of Regulation (EU) No 389/2012, making reference to excise goods under duty suspension arrangements.

5.2.4. Process L3-RADM-01-04-Prepare an extract from the Central Register of all active records

5.2.4.1. Objective of Process

The purpose of the current process is to describe the Commission extract preparation from the Central Register.

The process is running at least twice a day.

The process starts when the Commission decides to prepare an extract from the Central Register. The Commission collects all active records from the Central Register.

The Commission removes any record that is not available for public consultation. Thereafter, the Commission removes from any remaining record, all details for each type of Economic Operator or Premises thereof that do not correspond to the descriptions of extracted details of entries laid down in points (a), (b) and (c) of Art.6(3).

Finally, the Commission has prepared the Extract from the Central Register and the process ends.

5.2.5. Process L3-RADM-01-05-Access and Consultation of the Central Register by Economic Operators

5.2.5.1. Objective of Process

The purpose of the process is to describe the extract request made by Economic Operators, in order for them to receive Operations on the Register of Economic Operators.

The details returned to the Economic Operators who are present in the extract of the Central Register, are described in process “L3-REG-AS_IS-01-04-Prepare an extract from the Central Register of all active records”.

The process starts when the Economic Operator decides to request the Commission for extracted details of a record by submitting the unique Excise Number referred to in point (a) of Art.19(2) of Regulation (EU) No 389/2012. The Economic Operator requests the Commission for extracted details of a record by submitting his/her unique Excise Number.

The Commission receives a request. The unique Excise Number included in the request is validated against the Extract of the Central Register. In case there is a correspondence, the Commission prepares a confirmation of the validity of Excise Numbers held in Central Register referred to in Art.19(4) 2013/612/IR. If the unique Excise Number does not correspond to the Excise Number present in the extract of the Central Register, the Commission informs the Economic Operator about this and the process ends at the Commission side.

The Economic Operator receives the information that there is no correspondence between the unique Excise Number present in the Extract of Central Register and the one present in the request of the Economic Operator and the whole process ends.

In the case that there is a correspondence between the unique Excise Number and the Excise Number present in the extract of the Central Register, extracted details of the register are returned as follows:

a) If the unique Excise Number submitted corresponds to a record for an authorised warehouse keeper, a registered consignee or a registered consignor, the extract shall contain any of the following:

- (i) the textual description of the operator type code (data group 2 e set out in Table 2 of Annex, Commission Implementing Regulation (EU) No 612/2013);
- (ii) at least one excise product category code (data group 2.4 a in the ‘Operations on the register of economic operators’ message) or at least one excise product code (data group 2.5 a set out in Table 2 of Annex I, Commission Implementing Regulation (EU) No 612/2013);
- (iii) a combination of data groups 2.4 a and 2.5 a that is in conformance with the rules contained in the description set out in Table 2 of Annex I, Commission Implementing Regulation (EU) No 612/2013.

The extracted details are returned to the Economic Operator and the process ends at the Commission side. Then, the Economic Operator receives the extract containing the mentioned above information and the whole process ends here.

b) If the unique Excise Number submitted corresponds to a record for a tax warehouse the extract shall indicate any of the following:

- (i) at least one excise product category code (data group 3.4 a set out in Table 2 of Annex I, Commission Implementing Regulation (EU) No 612/2013);
- (ii) at least one excise product code (data group 3.5 a set out in Table 2 of Annex I, Commission Implementing Regulation (EU) No 612/2013);
- (iv) a combination of data groups 3.4 a and 3.5 a that is in conformance with the rules contained in the description set out in Table 2 of Annex I, Commission Implementing Regulation (EU) No 612/2013.

The extracted details are returned to the Economic Operator and the process ends at the Commission side. After this, the Economic Operator receives the extract containing the mentioned above information and the whole process ends at this point.

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Registration and Authorisation Data Management
Excise High Level and Business Requirements BPM Report for - Registration and Authorisation Data Management	
PROCESS MODELS	

c) If the unique Excise Number submitted corresponds to a registered consignee that falls under point (h) of Article 19(2) of Regulation (EU) No 389/2012, the extract shall, in addition to the data provided in point (a), contain the following information:

- (i) the expiry date of the authorisation (data group 4 c set out in Table 2 of Annex I, Commission Implementing Regulation (EU) No 612/2013);
- (ii) whether the authorisation may be used for more than one movement (data group 4 d in Table 2 of Annex I, Commission Implementing Regulation (EU) No 612/2013);
- (iii) at least one set of temporary authorisation details (data group 4.3 set out in Table 2 of Annex I, Commission Implementing Regulation (EU) No 612/2013).

The extracted details are returned to the Economic Operator and the process ends at the Commission side. Then, the Economic Operator receives the extract containing the mentioned above information and the whole process ends.

5.2.6. Process L3-RADM-01-06-Request a correction of an Economic Operator's record

5.2.6.1. Objective of Process

The purpose of the process is to describe the actions made when the Economic Operator claims that a record relating to his/her authorisation is missing or is incorrect.

The process starts when the Economic Operator decides to claim that a record to his/her authorisation is missing or is incorrect. For this purpose, the Economic Operator makes a request to the Commission.

After the request is received by the Commission, the Commission informs the Economic Operator on how to make a request for a correction of the record and provides the contact details of the Central Excise Liaison Office or Liaison Department of the responsible Member State. At this point, the process ends at the Commission side.

Then, the information is received by the Economic Operator and the whole process ends.

5.2.7. Process L3-RADM-01-07-Prepare monthly report for the Member States

5.2.7.1. Objective of Process

The purpose of this process is to describe the preparation of a monthly report for the Member States. This process starts when the Commission intends to prepare a monthly report for the Member States. For this purpose, the Commission extracts the statistical information from the Central Register in accordance with Article 34(5) of Regulation (EU) No 389/2012. Thereafter, on the basis of the extracted statistical information, the Commission prepares a monthly report. The process ends with the Commission having prepared a monthly report for the Member States.

5.2.8. Process L3-RADM-01-08-Request specific statistical report

5.2.8.1. Objective of Process

The purpose of this process is to describe the request for a specific statistical report by a Central Excise Liaison Office or Liaison Department of a Member State.

The current process is triggered when any Central Excise Liaison Office or Liaison Department of a Member State decides to request a specific statistical report from the Commission.

For this purpose, a request is made to the Commission for the preparation of a specific statistical report on the Central Register, by using the Common request message set out in Table 1 of Annex I, Commission Implementing Regulation (EU) No 612/2013.

EU Customs High Level and Business Requirement BPM Report	REF: EU Customs High Level and Business Requirements BPM Report for Registration and Authorisation Data Management
Excise High Level and Business Requirements BPM Report for - Registration and Authorisation Data Management	
PROCESS MODELS	

The Commission receives the Common Request message set out in Table 1 of Annex I. Thereafter the Commission provides a reply using SEED statistics message set out in Table 4 of Annex I, Commission Implementing Regulation (EU) No 612/2013.

These statistics can be one of the following five types (data group 3 set out in Table 1 Annex I), Commission Implementing Regulation (EU) No 612/2013:

- Active and inactive economic operators
- Pending expirations
- Economic operators by type and tax warehouses
- Excise activity
- Changes to excise authorisations

The request from the MSA also permits to specify the Member States involved in the request and the considered period of time. Upon the reply is sent, the process ends at the Commission side.

The Central Excise Liaison Office or Liaison Department of the Member State, that made the request, receives the SEED statistics from the Commission and the whole process ends.
